

Total OroCare Foundation

Project Report
2025 to 2026

Gratitude and Purpose

Our journey reflects our deep commitment to improving oral healthcare access. We are grateful for the support of our community, partners, and volunteers, forging a path toward meaningful change.

Meaningful progress in healthcare access

The past year marked meaningful progress for Total OroCare Foundation through oral health **screening camps, awareness programs, and school initiatives** focused on making dental care accessible to all. A major milestone was the launch of our **Total OroCare Foundation clinic in T Nagar**, **Chennai,** bringing affordable and quality dental care closer to the community. From educating children about oral hygiene to conducting early oral cancer screenings, every effort strengthened our focus on prevention and compassionate care. This journey was made possible through the dedication of our volunteers, healthcare professionals, and partners who continue to support our mission of building healthier communities through better oral health.

Dr. Kaushik Ramakrishnan
Director, Total OroCare Foundation

About Total OroCare Foundation

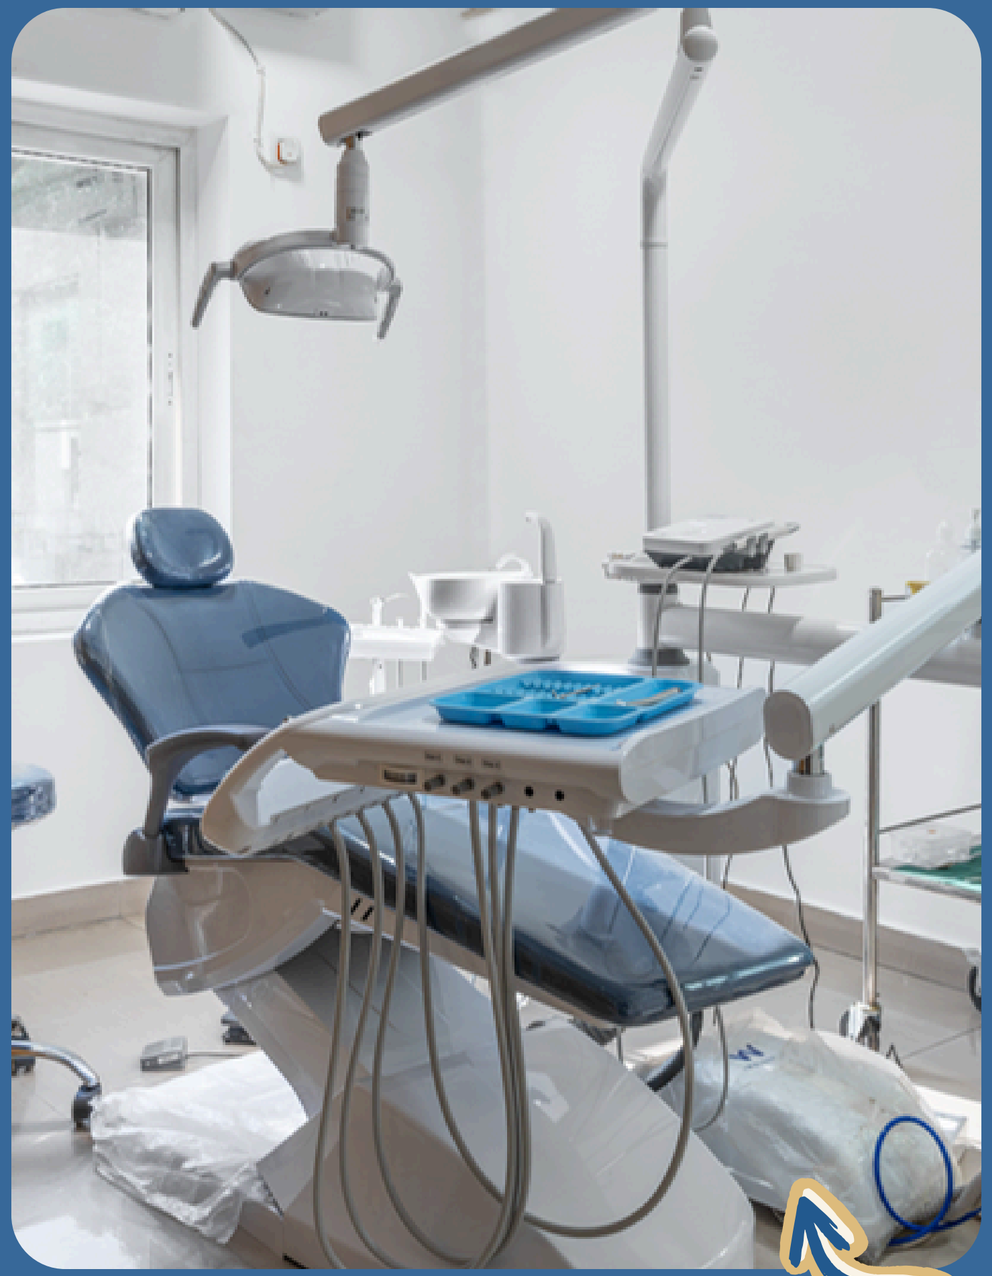

The Total OroCare Foundation is dedicated to improving oral and oro-facial health across India.

Mission: To enhance access to quality dental care for all.
Vision: A future where every individual has the opportunity for optimal oral health.

Key Focus Areas:

- Preventive dental care initiatives
- Community outreach and education
- Support for underserved populations
- Oral cancer prevention

Since its establishment, the foundation has been led by a team of dedicated professionals, working tirelessly to create meaningful change in oral healthcare, ensuring that every smile receives the attention it deserves.

Year at a Glance

2025-2026

01
TOCF DENTAL CLINIC OPENED

02
BENEFICIARY SCREENING 1000+

03
COMMUNITY OUTREACH

TOCF Dental Clinic

Operations and Patient Care Overview

Patient Treatment

The TOCF Dental Clinic has successfully treated over **100+ patients,** providing essential dental care in T Nagar, Chennai, emphasizing accessibility and affordability for the community.

Community Engagement

Our clinic actively engages with the community, **conducting awareness programs** that educate locals about the importance of **oral health and preventative care**, fostering a healthier environment.

Ongoing Accessibility

We aim to ensure ongoing accessibility to dental care through **continuous outreach efforts and partnerships with local organizations,** addressing oral health challenges within underserved populations.

Detailed Activity Report: DECIDUOUS SMILE School Camps

Camp Overview

The **Deciduous SMILE** school dental camps aim to provide essential **oral health screenings and education** to students, ensuring early detection and preventive care for young individuals.

Key Outcomes

During the camps, **over 840+** students **were screened,** with many receiving immediate dental care and follow-up referrals, significantly impacting their overall oral health awareness and habits.

Community Collaboration

These initiatives involved partnerships with **local schools**, enhancing community engagement and support, while fostering a collaborative environment for promoting oral health education among students.

Detailed Activity Report: Project SMILE

Screening Events

The **SETC Bus drivers** camp **in Trichy** screened **150+** drivers and their family members, providing them with essential oral health check-ups and valuable education on maintaining oral hygiene.

Community Engagement

The **Jeeva Park** community camp on **15 March 2026** fostered strong relationships, encouraging locals to prioritize their health and access dental care through interactive sessions and screenings.

Key Achievements

Project SMILE successfully reached a significant number of individuals, demonstrating the foundation's commitment to improving oral health and making services accessible to all.

Awareness Programmes

Engaging Schools for Better Oral Health

- By reaching over **250+ students** at **DAV School,** we create a *positive ripple effect*, encouraging families and communities to prioritize oral hygiene and health awareness in their daily lives.

- We distribute ***informative materials*** that reinforce key messages, promoting good oral hygiene habits and empowering students to become advocates for their own health and well-being.

Detailed Activity Report: Know Dentistry

Online Awareness Initiative

The **Know Dentistry** initiative created **oral health awareness** through video content in both **English and Tamil**. The campaign was divided into three segments **for kids, adults, and senior adults**, helping reach different audiences across digital platforms.

Impact and Reach

Over 20+ information-rich videos were produced, reaching thousands in the community, effectively educating viewers about oral health, dental hygiene and preventive care practices.

Future Plans

The Total OroCare Foundation aims to expand its reach, enhance programs, and introduce innovative initiatives in 2026-2027, building on successes from the previous year to improve oral healthcare accessibility.

3-YEAR ROAD MAP

From outreach to sustainable impact

BUILD & STANDARDISE 1

ESTABLISHING STRONG FOUNDATIONS

- Strengthen Chennai-based screening and outreach operations
- Standardise school and workplace oral health programmes
- Launch digital awareness and tele-consultation pilot
- Initiate mobile dental outreach in priority communities

EXPAND & STRENGTHEN 2

REACHING MORE, SUPPORTING BETTER

- Expand services to 2–3 districts across Tamil Nadu
- Conduct regular tobacco cessation and counselling clinics
- Strengthen referral pathways to TOCF clinics and public health facilities
- Improve follow-up and continuity of care for high-risk individuals

SCALE & SUSTAIN 3

ENSURING LONG-TERM IMPACT

- Cover 50+ schools and 75+ communities
- Explore mobile clinic and railway-linked outreach partnerships
- Integrate digital tools for monitoring and outcome tracking
- Move clinic operations towards financial self-sustainability

3-YEAR IMPACT TARGETS

Planned cumulative outcomes over a three-year implementation period

36,000
CHILDREN SCREENED
12,000 PER YEAR

18,000
ADULTS SCREENED
6,000 PER YEAR

36
SCHOOLS PARTNERED
12 PER YEAR

ALL THIS IMPACT, HOW WILL WE DELIVER IT?

Total OroCare Foundation will expand preventive oral healthcare through **mobile dentistry** in underserved suburbs and villages, and drive behaviour change through **tobacco cessation workshops, rehabilitation clinics, and structured counselling** for high-risk individuals. **Digital tools** will support awareness, enable consultation and follow-up, and ensure **continuity of care beyond screening.**

Acknowledgements and Donors List 2025-2026

Key Donors

We express our heartfelt gratitude to **Heat and Control, At Radius, and THECOS** for their generous contributions, significantly supporting our initiatives and outreach efforts within the community.

Community Partners

Special thanks to our dedicated partners who collaborated with us throughout the year, ensuring the success of our programs and enhancing access to oral healthcare across various regions.

Volunteer Support

We acknowledge the invaluable support of our volunteers whose commitment and passion helped us reach many individuals, making a meaningful impact on oral health awareness and education.
